Daily schedules are planned to get the most out of each destination, and I’m quick with a suggestion of regional food and drinks that our guests might not know about. That way, when it’s time for your travels, everything is smooth and easy.

Our five-year sustainability strategy

A blueprint to change

Alongside our sister brands at the Travel Corporation (TTC), we're proud of more than a decade of championing travel to make a positive difference on the destinations and people we visit, and the wildlife we encounter along the way.

Shannon removing invasive species

Meet Shannon

Chief Sustainability Officer

Among many things that make up her day-to-day, Shannon spearheads our five-year sustainability strategy, How We Tread Right (HWTR). It's our compass, guiding how we run our business and how you travel. Based on 11 goals tied to the United Nations Sustainable Development Goals, it tackles climate change, sustainable food, waste reduction, travel experiences, wildlife, diversity and inclusion.

“Something which has really stood out to me throughout the years is the incredible energy and commitment that all of our team members have. Whether it is searching for a new MAKE TRAVEL MATTER® Experience or doing their part in ensuring we achieve our sustainability targets, everyone here is on the same mission”.

Tell us about Trafalgar's sustainability journey so far?

We have been committed to MAKE TRAVEL MATTER® for well over a decade. We do this in two key ways, as a business we pledge to be conscious at all levels of our organization — from the offices we work in, to the trips we deliver, thanks to our five-year How We Tread Right sustainability strategy. Alongside this, our not-for-profit TreadRight Foundation invests in nature-based solutions to tackle climate change.

What is the role of the TreadRight Foundation, and what projects do they support?

TreadRight was founded in 2008 and has supported some 60-plus sustainable tourism projects worldwide that align with our three pillars of Planet, People and Wildlife. And, to support TTC's Climate Action Plan and journey to net-zero, in 2022 we shifted TreadRight's focus to prioritize support for nature-based solutions that protect biodiversity and restore the planet.

What ways does Trafalgar demonstrate its commitment to sustainable travel to guests?

When you travel with us, know that our four-point Climate Action Plan is leading us towards net-zero emissions by 2050. As the only tour company with an internal carbon fund, working towards low carbon goals, you'll be pleased to know that we're committed to shrinking our carbon footprint and helping nature fight the climate crisis. Additionally, every tour includes a MAKE TRAVEL MATTER® Experience, where you directly support United Nations Sustainable Development Goals.

What's Trafalgar's approach to diversity, equity and inclusion (DEI)?

We don't travel to see the same old things — we explore to meet different people, hear fresh ideas, and see new places. For us, DEI is more than sustainability; it's integral to our business operations. From championing diversity in our teams to partnering with underrepresented communities, DEI is woven into the fabric of everything we do.
